

Shouvik Sarkar

Kolkata, India | +91-9748955535 | iamshouviksarkar@gmail.com

SUMMARY

Senior Technical SME and Product Specialist with 7.5+ years of full-stack engineering experience (Java/Spring Boot) and deep domain expertise in **Retirement Income Solutions (RIS)**. Certified in Insurance and Annuities (LOMA 281, 291, 302, SRI 111) with a proven track record of architecting solutions for MetLife's RIS ecosystem. Managed end-to-end lifecycles for Pension Risk Transfers (PRT) and Institutional Income Annuities, processing over **\$53.5 Billion** in payments across 83.4 Million transactions. Adept at acting as a bridge between technical execution and business strategy, driving architectural decisions, and leading high-performing offshore teams.

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions (MetLife RIS Project)

Kolkata, India

Senior Product Specialist - Technical / Team Lead (Finance/Insurance Domain)

12/2018 - Present

- **SME & Domain Leadership:** Serve as the primary technical advisor and SME for the MetLife RIS project. Lead daily interactions with MetLife product owners and business analysts to define technical requirements, provide ballpark estimates, and assess technical feasibility for new features across the policy lifecycle.
- **Massive Scale Operations:** Engineered robust backend logic and RESTful services for calculating benefits, managing contract data, and executing payments for over 1.37M annuitants and 13.3K contracts. Code directly processes and manages a portfolio with over **\$53.5 Billion** in lifetime payments.
- **Complex Problem Solving & Performance Optimization:** Overhauled massive PL/SQL bulk processing routines for accounting generation and escheatment fund transfers. Introduced database indexing, normalization, and PL/SQL temporary transaction tables, reducing critical batch processing times by up to **98%** (e.g., Escheatment batch from 5 hours to 4 minutes; Payment Issuance from 3.5 hours to 8 minutes).
- **Business Tooling & Automation:** Architected custom internal UI tools to resolve critical business pain points, including an automated "Status Code" tracker mapping the entire annuitant lifecycle in a single pane of glass, and a real-time file transfer UI tracker, reducing business wait times from days to seconds. Currently analyzing a streamlined BA-to-Production Accounting Rules Engine to bypass lengthy SDLC bottlenecks.
- **Technical Mentorship & Agile Leadership:** Lead a team of 8 offshore developers for the past 3.5 years. Conduct daily syncs to resolve technical impediments, lead bi-weekly sprint planning, and enforce OOP design principles (Idempotency, abstraction, polymorphism) to ensure high-quality, scalable API architecture.
- **Production Support:** Act as the primary technical point of contact for resolving critical P1/P2 production incidents within the RIS domain, conducting rapid root-cause analysis and directing cross-functional remediation efforts.

SKILLS

Languages & Frameworks: Java 8, Spring Boot, Spring MVC, Spring Batch, Microservices, REST API, Hibernate, JavaScript, React, Angular

Database & Tools: PL/SQL, Microsoft SQL Server, Oracle SQL Developer, Liquibase, JUnit

Methodologies: Agile/Scrum, Object-Oriented Design (OOP), CI/CD

DOMAIN CERTIFICATIONS

- **LOMA 302** – The Policy Lifecycle: Life Insurance Administration
- **LOMA 281** – Meeting Customer Needs with Insurance and Annuities
- **LOMA 291** – Improving the Bottom Line: Insurance Company Operations
- **SRI 111** – Retirement Fundamentals
- **Agile SAFe Practitioner**
